

BIKES Club of Snohomish County

Route Marking Symbols for the 2019 McClinchy Mile: Camano Climb Edition

Notes:

- **105 miles of roads need route mark symbols**
- **Some road sections serve more than 1 route**
- **Reduces the amount of paint put onto pavement to help the environment and reduce the number of markings instead of route color specific symbols**
- **Route dots should retain the same position in the circle when other route dots are not present**
